

Metal fused sightglasses for Triclamp fittings

Metal fused Triclamp sanitary sightglass fitting, type "Standard View" (SV)

Metal fused Triclamp sanitary sightglass fitting, type "Large View" (LV)

Typical assembly

All dimensions in mm. Subject to changes without preliminary notice.

Applications:

For clamp fittings to DIN 32676 / ISO 2852

Versions:

- Version with standard view, type "Standard View" (SV)
- Version **with enlarged view**, type "Large View" (LV)

Advantages:

- Suitable for food processing and sterile applications
- High security
- Easy installation

Technical data:

- Test base: DGRL 97 / 23 / EG, AD 2000 standards, DIN 7079-1 May 1999
- Materials to VdTÜV specifications and the respective DIN/EN standards

Certificates:

To be supplied to DIN EN 10204-3.1 against extra charge

Operating conditions:

- Pressure: -1 to 6 / 10 / 16 / 25 bar (see table)
- Temperatures:

Ring materials:	1.4462:	- 30 °C to + 280 °C (SV) / +150 °C (LV)
	2.4602:	- 60 °C to + 300 °C (SV) / +150 °C (LV)
	2.4610:	- 60 °C to + 300 °C (type SV only)

Materials:

- Ring: 1.4462, 2.4602, 2.4610 (SV) / 1.4462, 2.4602 (LV)
- Glass quality: Borosilicate to DIN 7080 (SV)
Sodium silicate to DIN 8901 (quality B270 Superwite) (LV)
